

EMBLEM Solvent Value Display Film FR

EMBLEM Solvent Value Display Film FR

Matchcode:	SOVDFFR
Material:	rigid PVC
Finish:	satın
Color:	white
Thickness:	360 µm
Width of rolls:	36" / 42" / 50"
Length of rolls:	30 meters
Storage:	cool and dry environment, up to 3 years
BubbleJet Dye:	no
BubbleJet Pigment:	no
Piezo Dye:	no
Piezo Pigment:	no
Piezo Oil:	no
Eco Solvent:	yes
Solvent:	yes
Latex:	n.n.
UV curable:	yes
Flame retardant:	yes, acc. DIN 4102-B1

Description:

EMBLEM SOVDFFR is a matt coated, highly white rigid vinyl film with high opacity. The print is waterproof with brilliant colours.

This special film is for indoor and outdoor application like roll-ups, stand displays, poster, shop-decoration and exhibitions.

Advise for workmanship:

The drying of the printed medium is highly dependent on the inks used as well as the solvent coating and the colour saturation. When printing film in a roll-to-roll process, the printed strip should be unrolled and laid flat as soon as possible until final drying. Solvent residues due to insufficient drying times can lead to blocking during transport in rolled-up form. During lamination such residues can negatively impact flatness, the shrinkage behaviour and the anchorage of the laminate on the printed film.

After printing we recommend to store the remaining roll in the closed original packing in a cool and dry environment.

We recommend to protect the printed surface if it is subject to abrasion, sweat or other mechanical influences. In this case we recommend to protect the image with laminating film.

To avoid fingerprints the use of cotton-gloves is advisable
